

CSOAI Compliance Audit Package

Council of Sovereign AI (CSOAI) · July 2026

What This Delivers

A deterministic, measurable audit of your AI system's compliance with regulatory obligations. Not a questionnaire. Not a self-assessment. A measurement.

Pricing

Tier	Scope	Price	Deliverable
Pilot	1 provision, 1 model, 7 probes	£5,000	Compliance matrix + signed records
Standard	4 provisions, 1 model, 31 probes	£15,000	Full matrix + gap analysis + refutations
Enterprise	Full obligation-space, multiple models	£50,000+	Comprehensive audit + monitoring

Published Evidence

Finding	Measurement	n	Tag
Composition gain	+12.21 [+7.42, +17.00]	195	[MEASURED]
Deterministic gate	+34.84 [+17.50, +52.18]	31	[MEASURED]
C2PA survival	0/12 assets	12	[MEASURED]
Cross-model spread	40-point (83.7/43.7)	4	[MEASURED]
PQC signing	OpenSSL 3.6.3, ML-DSA-65	1	[MEASURED]

What This Is NOT

- Not a safety certification. We report measured refusals and survivals.
- Not LLM-as-judge. Every verdict is a deterministic predicate.
- Not composite scores. Per-axis, per-binding, per-lens — never merged.
- Not "verified authentic." Chain intact — tamper-evidence (sha256).

Next Steps: Scope call (30 min) → Probe run (1-3 days) → Report delivery (1 week)
